

## A Note to Alumni

BROTHERHOOD • SERVICE • CHAPTER NEWS

### Hello Alumni,

This is the first edition of ATO Monthly. I'm Johnathon Terpstra, a junior studying accounting and computer science, and I will be writing one of these each month. Our goal is to keep you updated on what is going on inside and outside the house.

We will cover recruitment, brotherhood, philanthropy, what our brothers are doing outside of ATO, and future events. If there is anything else you would like to see covered, please reach out to me or any brother in the house.

### SERVICE HIGHLIGHTS

#### We Lift moving: 67 hours

Several brothers volunteered for their time at a local homeless shelter, WeLift. While helping, the brothers moved their business to a new location, built furniture, and organized their offices. We have built a strong connection with them and will continue to volunteer our time here throughout the year.

#### Freshman Move in: 30 hours

We had our annual freshmen move-in on the 28th, welcoming a bunch of new faces to Simpson! We had a great time introducing ourselves and bringing their luggage to their room. We had a good turnout of brothers and did the job neatly and effectively.

#### Meals for the Heartland: 23 hours

Simpson hosted an event where students and organizations could volunteer their time to pack dry meals for those in need. Packing meals of rice, corn, peas, and nutritious and filling ingredients. In total, within three hours, the brothers helped make and pack over 40,000 meals for those in need with other Simpson students.
